

Gatineau, July 8, 2020

For immediate release

Les Jardins du Souvenir announces that the wearing of masks (face covers) will be required in its facilities as of July 13, 2020.

Gatineau, July 8, 2020, The team of the Maison funéraire et cimetières les Jardins du Souvenir announces that from a public health perspective, the wearing of masks (face covers) will be required in its facilities as of July 13, 2020.

This decision is part of a long list of measures put in place by the Jardins du Souvenir since last spring to protect the health of its clients and staff members.

Recent episodes of "deconfinement" lead us to believe that the danger of the Covid 19 increasingly resides in people's behaviour. "When we work in a sector like ours, where emotions quickly take precedence over reason, it is our duty to ensure that we offer the safest possible environment for our visitors and clients," said Daniel Dezainde, General Manager of Les Jardins du Souvenir.

Over the next few weeks, and until further notice, we will continue to welcome families in small groups in our facilities and cemeteries and we will do everything possible to ensure that mourning can be experienced in the best possible way in these very special circumstances.
